Larger Home Extensions: Neighbour Consultation Scheme

8 The Crescent, Southwick

Description of Proposal

- The proposal consists of reducing the width of the existing glazed conservatory with a new polycarbonate hipped roof, to provide space for the new kitchen extension, resulting in a slightly lower ridge height

- The proposed single-storey kitchen extension is the same width as the existing kitchen and projects 4120 from the rear wall of the existing house with an overall width of 3275 and a flat roof over with a maximum height of 3000

- The existing pre-fabricated concrete panel garage is removed to provide space for the extension. Parking space for two cars is maintained in the existing garage driveway

- All new materials will match the existing house and conservatory

- For details of the proposal, see drawing number 2317:01
