For the attention of the Development Management Section; Hannah Barker

I wish to object to the planning application for a second floor bay window to be installed at the east elevation of the permitted building development currently ongoing at the property at 55 Kingston Lane Southwick BN42 4SJ Ref AWDM/1876/21. This is on the grounds that it will further overlook my property and severely affect my privacy.

The permitted development works that are already underway permit the occupant to look directly into my ground floor conservatory, my first floor bedroom and my garden all to the south facing elevation of my property at **6 Westmount Close Southwick BN42 4SR.**

The proposed bay window at the first floor east elevation will allow direct vision from the side panels into my property. The other panels will provide only slightly reduced vision.

In addition the proposed bay window will extend this build further towards my property. The permitted development works over two storeys already form a considerable intrusion onto my space.

This proposed application will exacerbate the existing intrusion.

Mrs Elizabeth Ross

6 Westmount Close

Southwick BN42 4SR
