Subject: Retrospective application for external spiral staircase to rear (amendment to previously aproved application, ADC/0568/08) 58 Old fort road BN43 5HA.

60 Old Fort Road
Shoreham by Sea
West Sussex
BN43 5HA

5th of January 2015

REF: AWDM/1585/14

Dear sirs,
The owners of 58 Old Fort Road clearly like their privacy as they have six foot walls all around their back garden, a six foot wall on the 1st and 2nd floor's of their balconies and i respect that. Since the spiral staircase has already been built anyone using the staircase can now see clearly over the 1st floor balcony wall and down into all of our back garden as the spiral staircase negates the 1st floor balcony wall. Anyone using the staircase will be able to look down into our dining room and count how many potatoes i have for dinner.

What really concerns me is our bedroom. Anyone using the staircase can look down into our bedroom through both our rear south facing windows and more importantly our west facing window, any access to our bedroom via our bedroom door can be seen. Rather disconcertingly use of our bathroom can also be observed by anyone using the spiral staircase.

Lastly my most grievous objection is through our bedroom side window. Anyone using the spiral staircase will be able to look down onto our bed. This is a total loss of our privacy and i am now unable to leave any of my socks on the bedroom floor.

Obviously you can appreciate we are greatly concerned and feel extremely vulnerable in our own bedroom

Yours sincerely,

Mr and Mrs S.Lockie
