24 May 2018

Dear Sirs,

Planning Application ref: AWDM/0647/18
28 Seaside Avenue, Lancing, West Sussex, BN15 8BY

Further to your letter dated 11th May, 2018. I am writing to express my concern about the above application.

I see that the rear roof will be raised and that there will be a window to the rear of the new roof. The existing window seems to be a velux-type and as such has little impact on my privacy as it is sloping and not too high. The published plans show no detail about the height of the new roof or the new non-velux window. As the new window will look directly into my garden and also my lounge it would significantly impact on my privacy if it was any higher than the present window. If the new window were to be higher or much larger than the present one, I would request that it be obscured glass.

Yours faithfully,

[redacted]
Mary Vaughan
