Comments: This fence was reduced in 2015 by the council for being to high by errection of bell gardens landscapers it reduces my light as its on a north fence my patio sits right behind this fence it will also be above my garage roof line and from my bedroom as I am a bungalow can be seen it looked awful before it was reduced in 2015 why should the council now give permission to put it back up also I would like to represent myself at the meeting with photo graphic evidence of this as I think this would help my case it's not just trellis it is topped with a 4 by 2 timber with returns on it will look awful please email or write so I can attend the meeting and put my objections across
