Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:
- Highway Access and Parking
- Overdevelopment
- Privacy Light and Noise

Comments: On this planned side of the road these houses have no or very limited parking, due to being on the wide water side of the road. (1 car space per house hold).

The area around here/on this stretch of road has had more accidents, in the past 2 year's, than the past 20 put together.
There is now much less parking than there ever used to be, due to the house's that have been converted to flats, it's like an industrial area of vans, in the evenings now, and indeed at holiday periods.
In our opinion we stongly object to this planning application, as adding more room's to these already converted house/flats, will only add more people whom will also need to park.

Indeed due to parking there were 2 bad accidents outside our home last year /2019, and 1 knocked over the flashing/ illuminated 30 mph sign right outside, and was never replaced.
This is the A259 main road, and when we moved in, people were not even allowed to park on the main carriageway over night / particularly without vehicle light's on, this law seems to be just forgotten about

now. Adding to this is only going to be more hazardous.
