Slab Plan View

Scale: 1:100

- Levels marked in green, taken from center of circle
- New concrete slab marked in blue
- Beach hut position marked in red
- Area of raised tarmac (outlined in purple) to be lowered and tarmacked to match surrounding promenade

Scale Bar 1:100

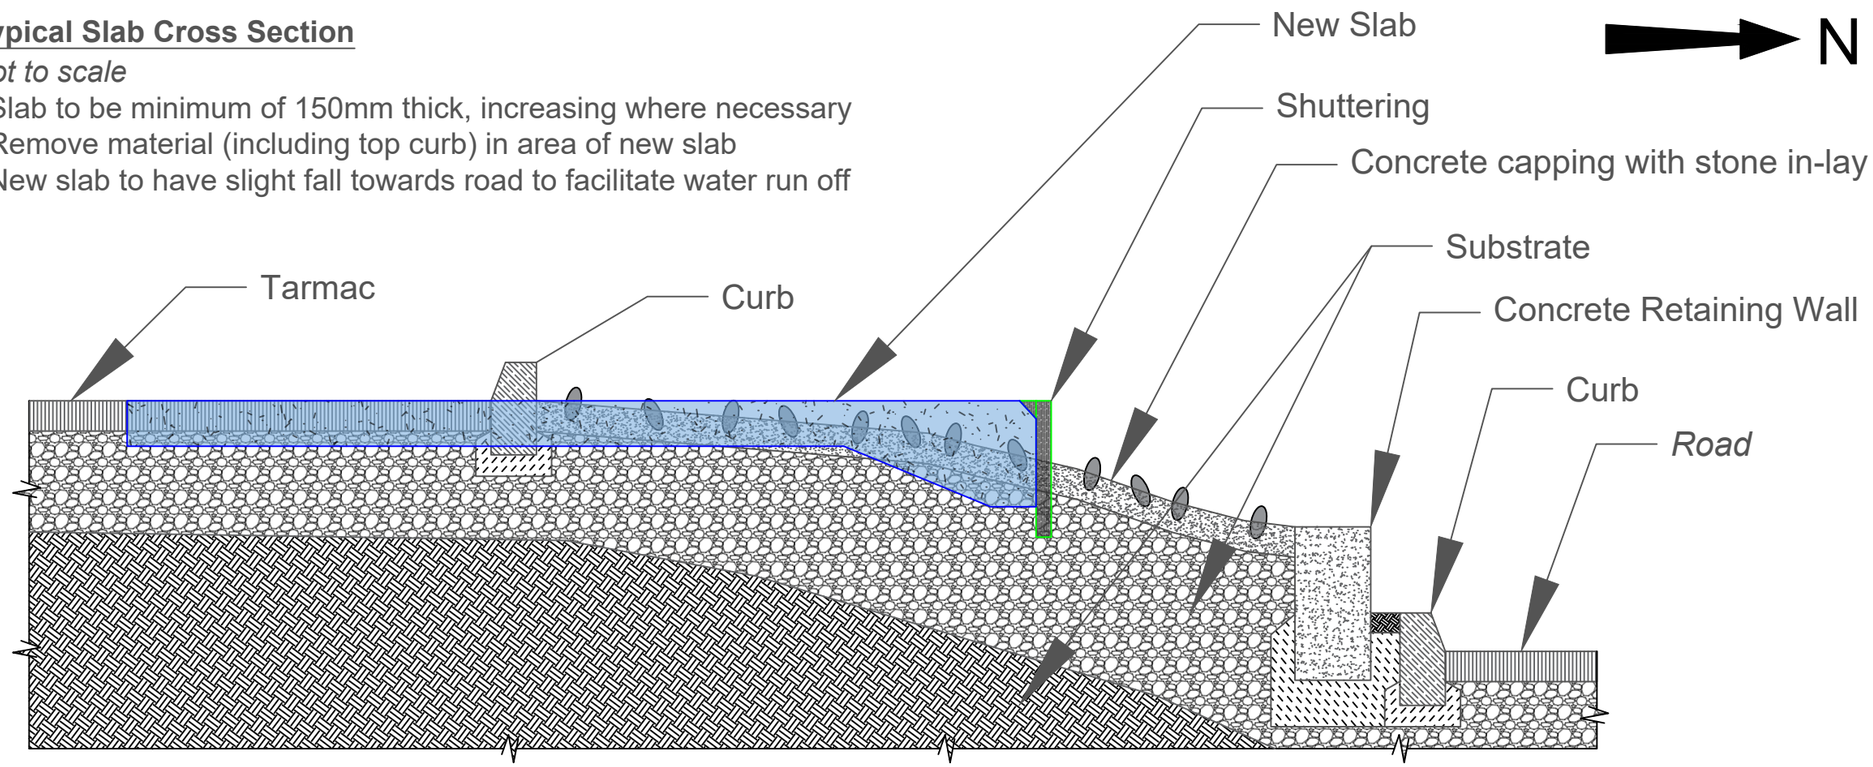

0m 1 2 3 4 5m 10m

All measurements are in millimetres/metres unless otherwise stated

Typical Slab Cross Section

Not to scale

- Slab to be minimum of 150mm thick, increasing where necessary
- Remove material (including top curb) in area of new slab
- New slab to have slight fall towards road to facilitate water run off
