Comments:	Further to my colleagues previous comments, I understand the applicant wishes the use to be consistent across Saturday and Sunday - i.e. 09:00 to 20:30. I do not believe the additional 30 mins on a Sunday will make much of a material difference to the impact on residents. I do however recommend that the applicant produces a noise management plan in order to control noise and deal with any issues that may arise from use of the facility. Their Terms and Conditions can be incorporated into the Plan. The following is a suggested condition. 'The facility hereby approved shall not be used until a Noise Management Plan relating to the use of the facility has been submitted to and approved in writing by the Local Planning Authority. The Noise Management Plan shall include details of community liaison, complaints procedures, user briefings and means of preventing unauthorised use. The approved Plan shall thereafter be adhered to at all times and reviewed at least once every 12 months.' Reason: In the interests of residential amenity having regard to Policy DM5 of the Worthing Local Plan.

Kind regards
