I filled out and sent you 2 x planning applications for the above project via the planning portal. The first application form was incorrect, but I did not realise until after I had sent it (please disregard/dispose of the first application form). The second application form (planning portal reference no. 000840393) should be correct and be submitted, I delivered the relevant planning application drawings & cheque by hand to the Civic Centre on 27/09/09.
