Subject: Condition 2 of planning permission WB/08/0201/FULL – AHUs on roof of Marks & Spencer store, 51-59 Montague Street, Worthing

Dear Ms Sainsbury

Further to your email of 2 September 2008 and the submitted further details relating to the acoustic works to the Air Handling Units at Marks & Spencer store, Worthing, I can confirm that the completed mitigation measures are acceptable under Condition 2 of planning permission WB/08/0201/FULL, and are hereby approved.

Thank you for your kind attention to these matters.

Condition 2 of the permission is herewith discharged.

I trust that this is of assistance to your client.

Yours sincerely

Howard Barnes-Moss
Senior Planning Officer
Worthing Borough Council

Subject: Marks & Spencer Worthing - Condition 2 planning permission for roof plant (WB/08/0201/FULL)

Mr Barnes-Moss,

Further to your letter (dated 18th August), we attach a report prepared by Marks and Spencer's acoustic consultants, Sharps Redmore, who have confirmed the actual noise levels of the air handling units in relation to the site boundaries. Your letter (dated 23rd June) requests mitigation measures to be designed for the plant to ensure that it does not exceed 60 dB(A) at any position outside the site boundary. Sharps Redmore have visited the site yesterday (1st September) and the report attached confirms that the noise from the AHUs, with the approved acoustic baffles fitted, does not exceed the specified limit of 60 dB(A) at any point outside the site boundary.

Please do not hesitate to contact me with any queries.

Regards,

Sam
