Dear Marie,

Re: 158 Old Fort Road, Shoreham-by-Sea - Variation of Conditions regarding AWDM/0784/18

We are in receipt of a letter dated 3rd September 2019. We therefore understand the owners of number 158 are seeking retrospective consent for works that they have carried out, directly contravening their original planning permission.

We would like to object in the strongest possible terms to their application to install clear glazing as opposed to obscure glazing. Incidentally, as I am sure you are aware, they have already proceeded in contravention of their original planning permission and installed clear windows.

Prior to the installation of these windows my parents enjoyed great privacy and they were not overlooked. These windows now directly overlook their kitchen and gardens, completely removing any privacy they previously enjoyed.

I am therefore keeping my fingers crossed that the original planning application will be upheld so that the owners of number 158 have to replace the clear glass which they have installed.

I understand you are visiting my parents on the 4th October. I therefore take this opportunity to thank you very much indeed for your ongoing interest in this matter, which is very much appreciated.

[redacted]

Mark Cook
