Subject: Planning Application objection to AWDM 1596/25

To: planning@adur-worthing.gov.uk <planning@adur-worthing.gov.uk>

As Worthing residents we refer to the above planning application for a 5G mast north of

Durrington Community Centre 2 Romany Road Worthing AWDM1596/25.

The proposed mast would be of detrimental visual impact due to its height and proximity both to the community centre and to nearby residential properties. It would also add to

Street clutter.

Health concerns - it appears that you do not take these into consideration in applications of this nature. However, the proposed mast could constitute a risk to those with medical implants and would refer to the case of Thomas v Cheltenham Borough Council 2024 UKSC2025-0066 which suggests that health issues could indeed be of relevance.

The presence of such a mast may also be harmful to local wildlife.

We therefore submit our objection to the above mast.

Thank you.

S Jeffery and B Blair
