Thank you for the e-mail. I think that the existing TPO ash is far enough away from the proposed build to be unaffected. The nearby sycamore might be affected, but it would not be considered for a tpo.

Many thanks

Hi Jeremy,

The application above relates to a proposed replacement garage (see details online) which will replace and extend the existing garage towards the boundary and obviously impact upon the tree (see my attached photos). This is not a protected tree, the TPO relates to an Ash tree on the corner. Can you have a look at this and advise of any comments/concerns/ objections etc.

I need to determine this by 18.12.12 so if you are able to look at it early I would appreciate it.

Regards,
Rebekah
