Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	I would like to log my support to this application. We have lived in Furze Road for nearly 10 years and can testify to the positive impact the Refreshment Rooms has brought to this community since it opened 3 years ago. I walk past the shop twice a day and have never felt it being noisy nor ever experienced any form of anti

social behaviour. It's fabulous to see cyclist, dog walkers, families & friends supporting an asset so vital to many, adding character & charm to our neighbourhood.

The extension or hours proposed are moderate and in my view, would not have an adverse impact, it's quiet at the current closing time with very little or no cars, struggling to see how the extension would be any different.

I am quite surprised by the objections regarding excessive noise & anti social behaviour, with there being no previous formal complaints to testify to such.

The smell of Gorilla's wood stove wafting into my garden, is a reminder that it's time to gather the kids and spend some quality time sharing a pizza and a drink at the corner. We love that many others are getting so much joy from it as well.
