Hi Richard,

Thanks for your response by return.

We do hold and retain a retention on this project with the principal contractor, so should we find any defects that occur within the next 12-months, I will be sure to pick this up and have onwardly resolved.

I note the preferred colour choice and will look to implement this. Once complete, I will onwardly provide you with a photo.

Thank you again for your help and assistance with this project.

KR,

Neil

Hi Neil,

Thank you for sending me images of the completed wall. I note that in some places a very thin skim of mortar has been used without the usual minimal depth being the same as the width of the joint. I will be interested to see how this weathers.

As Lime mortar ages it will gradually darken down, so I would suggest a light grey for your expansion joint. Probably something like the grey white (Ral 9002).

Kind regards
