Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Since the mysterious death and subsequent removal of the tree on Albert road which was directly to the back of number 10 park lanes property, shortly after the current owners moved in, the look of Albert Road and especially from our house has been very much altered. To add an electric gate to the rear of their property when there is no planning permission for a driveway, will alter even more the look of this conservation area, at eye level. Albert road residents have been unable to have Dorma roof extensions to the rear of their properties so as not to affect the look of the street, and so a big electric gate should also not be permitted in this conservation area

Kind regards
