Replacement of existing bungalow with two storey house.
I am the owner and permanent resident of no 18 East Meadway, next door to the proposed development, and wish to comment as follows.
Loss of light: I am concerned at the loss of light at the side of my property, with the construction of a double story house on a small site next door. My property is a little semi-detached bungalow and the light between my home (no 18) and the proposed new house (no 20) will be seriously impacted.
Privacy: the upstairs side window directly overlooks a bedroom in my property. I would request that the window be altered to make it less intrusive, or be of frosted glass.

I look forward to hearing from you.
