Stance: Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment: - Privacy Light and Noise

Comments: I have a concern that this structure will add to the present light pollution already experienced from Amberley court. I also have concerns around safety. the exit of my property is in to the access road and it is already unsafe with combustion vehicles coming in and out. If there are electric vehicles to be going in and out of this access road on a regular basis what safety measures are going to be put in place? Also how will light pollution be managed? Also on the application there is no map so I can not clearly see where this building is going to be placed exactly. Please provide a map so I can have a more informed opinion on this proposal. Thank you.
