- Overdevelopment

Comments: Dear Gary, I am sending this email on behalf of my parents and I think if you check your records you will see my previous objections to this construction along with some attachments. It has completely ruined the view of the sea area that my parents used to enjoy, they both served in The Royal Navy during the hostilities in the Second World War,my Mother(who is now 92) on the Home Front and my Father(now 89) at sea.My parents,my Sister & I, all believe that the value of 123 Downsway has been greatly depreciated,who would want to buy a property with an eyesore (my personal opinion) like that to look at? My Father was taken to hospital last week,thankfully he was only kept in overnight,we are hoping that the problem isn't stress related but we are awaiting test results. All my parents wish to do is live in relative peace,quiet and with as little stress as possible,my Mother is now very frail and my Father is terribly upset. I do believe that you have visited 123 Downsway and have viewed the garage roof of 121 before the construction was completed? I have also heard that some of the other

neighbours are not at all happy about what is happening in their neighbourhood, and I am sure that they will add their points of view. My Father believes that the owner of 121 can do what he pleases and no-one will stand in his way,as I have explained to Claire Pink. I am sure that there is a lot more for myself and others to say on this matter,my parents have been advised to have an Inspector from the council to view the impact of the construction and I am hoping that he has or will be doing so very shortly. Regards, Ian Hanson.
