Dear Sir/Madam

Our next door neighbours at 41 Downside Avenue have put in an application for planning a single story extention ref: AWDM/0236/25. A planning officer knocked at my home this afternoon to have a look in my garden of how the new single story extention would impact on our privacy as my neighbours would like to build a new clear window to see the views through the planning officer said to me that it should be obscure glass in the new window and not clear and I am in agreement with that as it over looks my home and garden. Please take my complaint into consideration. We are lucky to have such lovely new neighbours at 41 and we don't like to upset them but we feel strongly about this.

Thankyou

Kind regards

Noreen O'Callaghan & Ken O'Callaghan
