Subject: Objection - Loft conversation 10 south point

Hi,

Thanks for the reply. I would like to complain/object on the basis that they seemed to have started work already and are doing building on a Saturday. This is unacceptable and disturbed my right to enjoy my home of a weekend. I have not even been asked or advised this was going to happen. While I don't object to the conversion itself I do have issue with this disturbance.

Could please let me know why they are allowed to do building work during the weekend? And how my complaint will be processed.

Many thanks,

Stuart Wray
