Dear Miss Barker

I feel I must write to say the building on the seafront should not be allowed. We already have that monstrosity for use of watersports plus I now cannot sit in the lovely shelter as now all seats have gone. If I remember correctly there was a motion stating no more houses or buildings on the Beach. It has spoilt the lovely green, a lovely place for children & old folk to see whats left of the Beach. What was wrong with the Mermaid Cafe for the family to enjoy, I was always in there with my Mum. I was here in the War, for a couple of years. Then, whenever I could come down for holidays. Eventually came here to live & have

resided here in the same house for 55 yrs. I do not like Lancing now nor Worthing as both sea fronts are to built up on. My friend lives in a house not to Ariel Court & they are of course very upset to say the least. They chose to live there by sea & paid a lot of money to do so. Now everything will be blocked out plus the road traffic & try getting out of the garages of their houses. Its an absolute nightmare. I find it hard to park anywhere now & being disabled I find the walking very difficult. I sympathise with everybody on the sea front. It is very dangerous indeed. There are now 2 shelters on the Prom that they have closed. I get taken to Bognor now as it is cleaner & quieter & a nice clean Prom with plenty of seats. Thank you for reading this. [redacted]
