Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	With the walls of our two properties only being 2 metres and one foot wide between one another, we do have to object to the additional living room window as it will create extra noise in our home. We do also have to object to the pushing out from the conservatory side boundary to the existing property line as it will be only 1 metre and 6 inches from the fence between our properties, which will be too close and with the the garden boundary being pushed out further and the wanted solid roof on top it will take all our light, at times, from the back of our home and the increased floor space, will create extra noise re parties, for us both in our home and garden. What we have experienced already has been challenging enough and our dogs do have to have use of our garden.

Kind regards
