Thank you for your letter dated 22/12/2017 regarding the fence to be erected by St Peters Roman Catholic School.

I have tried to visit the site suggested to leave my comments but I cannot access the page required.

I do have an objection to this fence being erected, on the basis, that when the current fence was put up NONE of the weeds (bind weed etc) and Ivy were cleared before, and subsequently these plants have continued to over run my property with NO access to remove or destroy them.

If the same happens again and the situation will be untenable.

I want to be guaranteed the ground will be cleared thoroughly and correctly before the new fences are installed.

Kind Regards,

[redacted]
