Comments Ref. the above trees, being already in a CONSERVATION AREA, we would certainly expect the trees to be already covered by such an order, and, if not, then they most definitely SHOULD BE! Surely, with Adur's record with regard to GREEN issues, there is no way the trees can possibly be allowed to be destroyed, as they are mature, beautiful trees, in a healthy condition, and must be protected.
There is no possible reason to allow their destruction.
