Dear Ms Hearsey

We have tried 4 times to submit comments on the above application but keep receiving server error on the website.

We will try again later but are concerned that this might not be received in time.

We wish to object to the above proposal

Due to the upstairs living design this will affect privacy on ours and surrounding gardens/property as they are all in close proximity and staggered. This is more than a bedroom would.

We are concerned once a precedent has been set our attached neighbour could do the same, this would afford them a view into our rear dormers used as bedrooms. Currently occupied by our children.

Contrary to belief we are also concerned with regards to devaluing property. The road, properties are not necessarily conducive with the size, height of proposed terrace. Many people value some privacy especially within semi-detached dwellings.
