Reasons for comment: - Other

Comments: Number 7 Mountview Road, is next to number 3, there being no number 5. Our front entrance porch faces south and directly on to the north wall of the proposed extension. Our porch is glazed all round to maximise the light entering the hall, which is central to our living space. The extension, as proposed, would seriously affect the lighting in this space and would be visually very intrusive and unattractive. It would completely block all direct light from the sky, as seen from anywhere inside the hall space, and would replace this with a view of a tiled wall. This would permanently change the nature and quality of our living space. If the development were limited to building above the original bungalow, and not above the ground level rear extension, this problem would be avoided.
