Louise,

Thank you for your message below. The contractor has confirmed they would adopt the closed lockable version of the cycle store as you suggest below.

Kind Regards

Will Booth

Hi Will,

I think you should stick with something similar to the original design but with gates. The same company seems to have a similar product https://www.shelters4less.co.uk/Shelters-Walkways-Canopies/Cycle-Shelters/Build-Your-Perfect-Canterbury-Cycle-Shelter. The new one proposed does not have visible spaces which can be an issue for security but they also won't be visible so people may not know that they can use them. Locking to sheffield style stands is also easier and more accessible.

Thanks
Louise
