Dear Ms Morin

REF: AWDM/0949/26

Thank you for writing to us regarding the above application.

We should like to object to this application as we consider it to be overdevelopment adjoining Goring Hall Conservation Area and the Goring Conservation area, a more modest extension would be better.

We particularly dislike the addition of solar panels on the east and west side of the roof as it will impact the adjoining conservation area as an ugly addition and have a detrimental effect on the street scene.

We are also very concerned by the proliferation of these solar panels.

Yours sincerely

Natalie Cropper
