Dear Sir/Madam,

Proposal: Demolition of existing conservatory and erection of replacement garden room and access ramp to South elevation.
Site: Wraysbury House 2 Beccles Road Worthing West Sussex.

Thank you for your correspondence, please see our comments below regarding the above application.

Rear/side extension, No Sewer mapped

Due to legislative changes, certain Southern Water sewers are not comprehensively mapped. There are no public sewers recorded within the site boundary. However, the relevant requirements, conditions and application associated with the build-over/close-to a public sewer are available at Southern Water's Get Connected service: https://developerservices.southernwater.co.uk

Please note, surface water should not be disposed of into a public foul sewer and must comply with the Hierarchy of H3 of the Building Regulations. For more details, refer to the Drainage and Waste Disposal: Approved Document H on the GOV.UK website.

Any new connections to the public sewerage system will require a New Sewer Connection application (also known as a Section 106) to be submitted and approved by Southern Water.

Tree Planting

We have restrictions on the proposed tree planting adjacent to Southern Water sewers, rising mains or water mains. Reference should be made to Southern Water's publication “A Guide to Tree Planting near water Mains and Sewers” (https://www.southernwater.co.uk/media/pddob0vn/ds-tree-planting-guide-1_nwm.pdf)

Southern Water Services Ltd, Registered Office: Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX Registered in England No. 2366670

The Sewerage Sector Guidance (https://www.water.org.uk/sewerage-sector-guidance-approved-documents/) with regards to any landscaping proposals and our restrictions and maintenance of tree planting adjacent to sewers, rising mains and water mains.

Condition: In order to protect public apparatus, Southern Water requests that if consent is granted, the following pre commencement condition is attached to the planning permission; The developer must advise the local authority (in consultation with Southern Water) of the landscaping proposals in proximity of public apparatus in order to protect it in accordance with Southern Water's guidance, prior to the commencement of the development.

Proposed works involve demolition

In order to protect and safeguard the existing water supply apparatus, Southern Water requests formal notification of any proposed demolition works prior to such works being undertaken.

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site. If this happens, please call our Customer Service Desk on 0330 303 0119

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
