PLANNING SERVICES

REF AWDM107515

Dear sir / madam

As the owner of the property which this directly affects I wish to oppose the planning of the detached garage store. I have had countless arguments with the owner of the caravan site regarding other matters and feel that this building was erected to annoy me rather than to serve the purpose to which it was intended. The building is not in character with any of the houses or any of the caravans on the site making it stick out like a sore thumb. This building has had a direct effect on the saleable value of my house as nobody seems to want to look at the eyesore at the bottom of the garden or while sitting in their lounge, Because the roof of the garage is so high when we are sitting in the garden I have to constantly move chairs around as this building casts a shadow over my garden.

Enclosed with this letter are pictures taken from areas of my house.

Picture 1 - Is taken from my lounge looking out to my garden. As you can see the garage blocks my view and cuts down my light in my living room

Picture 2- Shows how close the garage is to my boundary so I can't maintain my fences

Picture 3 – Is looking from my upstairs balcony which shows the full extent of the garage and view I have to endure when I am sitting on the balcony

Picture 4 & 5 – This is the view from the side of my balcony. This shows what I have to also look at every day so why can't this garage be put there as it doesn't affect anybody's view

I hope this matter can be resolved quickly and you take into consideration the stress this is causing to me and my family.

Yours Faithfully
