Dear sirs
I refer to order number AWDM/0967/13
As the house owner of 4 swiss gardens , bn435wh , I am appalled the above order is still outstanding and has not as yet been approved , as far as i am concerned during windy period there are branches tapping , brushing my roof , during the storm I was kept awake by this , I am about to take legal action to the owners of homehaven court if these tees are not maintained , I would appreciate a quick response and , permit this order as soon as possible , these trees have encroached to far ,
