Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment - Privacy Light and Noise
Comments:	There is already too much parking down church lane during school pick up/drop offs. It restricts residents own access to drives. This has been mentioned to the school previously, people park on the corner by the church by the junction of Albert road. A double bend it's already dangerous enough. People still park on the zigzag lines and there is photo evidence of this. There is not enough school parking available to support it expanding. The old rectory which borders the school grounds is a listed property and would be blighted by further urban development so close.
