Subject: AWDM/0945/11 Objection to the planning application

Dear Sir

I wish to object to planning application AWDM/0945/11 for external air-conditional units and ventilation outlets for veterinary surgery at 120 High Street, Shoreham-by-Sea.

These units are extremely inappropriate so close to a residential and conversation area due to the noise that they omit. The units, which I note have already been installed on site despite no planning permission being granted, will be 25 metres from my property and the level of constant noise during operating hours will be extremely anti-social and conflicts with the "good neighbour" policy that the Coastway Veterinary Surgery claim to have.

The levels of sound that previously occurred when the site was being used as a car workshop were not as constant as an air conditioning unit in operation will be and would have last occurred over 4 years ago when the car workshop closed. I also fail to see without any evidence of previous noise levels how the application can claim that they would have been in excess of the expected noise of these units.

Regards

Julian Cosson
