Dear Amanda

May I add and I will re-iterate, that the impact on the surrounding neighbours' privacy and myself included - of this proposed summerhouse will cause a lot of loss of privacy - and increased noise levels for everyone. The sheer size and design of the proposed summerhouse is off the scale; it is far too large for the overall size of the garden - and out of character with an ugly black rubber roof - it would be an eye sore and there has been no significant change in its design and has no aesthetic appeal i.e., the latest suggestion is also incomplete as it has not even been moved further down to the West away from us for those being affected and it is too similar to the one recently refused - I do not like the positioning of the windows at all looking towards my house. If this garden was in the countryside not affecting neighbours it would be a different story but it is going to interfere with many neighbours. We have all indicated that we do not want this interference.
