Re: Formation of one-bedroom flat at secondfloor level including part-hipped gabled rear extension and conversion of roof space (with rear dormer and front rooflights)

I write further to your memorandum dated the 29th October 2010.

I would advise that the second floor flat would be inappropriately stacked above the first floor flat with a living area spanning above bedrooms and the stair lobby to the second floor is very tight raising the question on how would residents get any furniture, for example a sofa, up the stairs.

Michael Lavender
