Subject: OBJECTION AWDM/1596/25

To: <planning@adur-worthing.gov.uk>

Cc:

I wish to object to the above application for a 20m 5G mast.

The proposed site is in a mainly residential area, close to homes, schools and businesses - contrary to NPPF guidance to minimise visual impact through sensitive siting.

The mast and cabinets would be a dominant and ugly feature within the street scene and the existing green space. It would have an unfavorable impact on the local area.

Policy DM5 of the Worthing Local Plan

Any development should enhance the local environment and the prevailing character of the area, making a positive contribution to the distinctiveness of an area. This proposal will not do that.

Policy DM6 - public realm.

The quality and design of the public realm has a significant effect on quality of life, and influences a range of health and social factors. The proposal would not contribute positively to the public realm.

The proposal is unsuitable for the area and I hope it will be rejected.
