I have taken a look at these trees. All of the protected trees are in reasonable condition and worthy of continued protection under the existing order (Adur TPO No. 2 of 1976). Assuming that the porch will not require foundation works beyond the existing building line, I do not consider that this development will affect the trees.

Many thanks

Hi Jeremy,

Please could you check out the impact of this development (new porch) on the sycamores in the front garden.

Do you think we could rely on condition? The trees are TPO - do you think they are worthy being so close to the building?

Thanks
