Firstly I was advised that all appeals had been rejected and that as this building convened Planning Laws it was due to be removed.
I would like documented to why there is further development proposed

This building is out of all proportion to its environment and imposes over my property especially at the top of my garden where it greatly impacts on my privacy.

It overlooks and sees into my kitchen, dining room and two of my daughter's bedrooms especially in the winter and therefore has a detrimental impact on my privacy and that of my children.

The vendor has previously had a series of foreign workman living and working from his property and there is a fear that if this building stays, it will be used as dormitory accommodation.

The property already has 5 vehicles parked outside the property leading to cars being parked on the pavement on a daily basis. More living accommodation will only add to this issue.
