Jo Morin

I am writing to you about the changes planned for Courtlands

I live at 35 Parklands Avenue directly next door to the school and am very concerned about the new plans

At the back of me the school has their goal posts which I have asked if they could be moved as I have had 13 balls in my garden and when sitting outside on my lawn suddenly these heavy footballs arrive which could hit me and damage plants etc several came over when I had a meal on my table

So now on the north side of me it looks like there is going to be another sports facility with more balls which when used by boys or girls could easily come onto my drive and damage my car , now is this fair, I am 85 years old and bought my bungalow as it was so peaceful and I feel I am in the worst position of any other property abutting on to Courtlands grounds

As I am one person complaining do I stand a chance of anything being resolved ,probably not,

I think a member of the planning dept should come out and knock on my door to see just how much I am being affected or preferably make an appointment to meet up and judge for themselves

I have a daughter with learning difficulties who lives at home and find it really affects her

Perhaps some consideration could be given to a resident for a change

Also when the plans were agreed one of the points pointed out was that the grounds would be kept in order, well the hedge which affronts the property of Courtlands has grown so much and has had absolutely nothing done to it for years so now is so high and looks dreadful

I'm all for children with problems having a place to go but not at the detriment of neighbouring properties

I would very much like someone to make an appointment with me and come and see exactly what I am describing

I await hearing from you

Kind regards

Monica Jackson
