Comments

Submission Type:
Customer objects to the Planning Application.

Comments:
Thank you for consulting the Joint Committee on this application. I apologise for the delay in responding.

When commenting on the previous application in 2004, my main concern was that the situation of various temporary uses would remain, thus reducing the incentive for the comprehensive redevelopment of the whole site. Nevertheless, I raised no objection to the application for a temporary period of three years. However, permission was granted for a five-year period and this unsatisfactory situation still exists

I remain concerned at the principle of a succession of temporary permissions for these uses, particularly as the mobile homes stored on the site are unatttractive, although I accept that they are seen in the context of the very unsightly former cement works. I also accept that the current recession has undoubtedly discouraged any thoughts of a comprehensive redevelopment and I am aware of the lawful B2 use of the site. Nevertheless, I do consider it important to concentrate the mind on a comprehensive redevelopment of the site, and I therefore object to this application.

If, however, you are minded to allow these uses to continue through a further grant of a temporary permission, I woulld ask that it be for 12 months only.
