Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:	- Loss of General Amenity - Overdevelopment - Privacy Light and Noise
Comments:	The disruption that will be caused by light pollution and noise up until 10pm is really unacceptable in such a built up area. For families and households that are close to the proposed paddle courts will be greatly impacted, especially in the summer months where many families enjoy recreational time in gardens, also for children sleeping, windows will have to stay shut in hot weather as the noise from the courts will impact on close by houses. We already have impact from the football ground to contend with, the floodlights and noise, thankfully that is not 7 days a week as the paddle courts would be, There is insufficient parking nearby and when football is played on Monks field cars clog up adjacent residential streets as well as Crabtree Lane, this will all be exacerbated by the addition of paddle courts. There are better places for them to be situated, in North Lancing unused tennis courts could be converted for the paddle courts, or even in the grounds of manor rec. They back onto fields so there would be no impact on residents. The loss of such a large area are Monks field is truly unacceptable This proposal has not been well thought out to take residents into consideration. I strongly object to this proposal.

Kind regards
