Subject: The grizzly bear 33 south st tarring/AWDM/0538/26

Dear Jo,

I have looked at the application in terms of food hygiene and toilet provision.

As the application includes the proposal to have the seating benches outside permanently fixed this increases the number of seats for customers. The premises currently has one toilet.

The business would therefore be expected to comply with our standards for toilet provision which they can find here:

Thanks, Wendy.
