Reasons for comment:	- Other - Privacy Light and Noise
Comments:	I think this application for 3 internally illuminated signs should not be given . It would be useful to be given information on the website on how big each sign will be , show the design of the sign and illuminated colours used . Do people living in this area want brash illuminated signs everywhere? I certainly do not. If the Planning Authorities give permission to one company to have illuminated signage there will be loads of other companies following their success! Any illuminated signs in the centre of Shoreham and on the Brighton Road will spoil the atmosphere of the area, make it look very commercialised and create more light pollution which we do not want. Please will the Planning Authority stop such signage in Shoreham.
