PLANNING SERVICES

31/10/13

To whom it may concern.

I would like to register my concerns with reference to the planning application at 95 Gordon Road in Shoreham. My worries stem from the already problematic issue of parking at the Eastern Avenue end of Gordon Road. The residents at 95 have at least 3 vehicles, one being a large works van which is often parked outside our house or on the green area at the top end of Gordon Avenue. Where will they park the other vehicles when their driveway becomes an annex? 101 Gordon Road have just built a similar extension restricting their driveway parking facility, they also have three cars. 99 Gordon Road is a car enthusiast whose driveway has two cars being worked on therefore he parks his other car on the road. It becomes very distressing as these vehicles are often parked in what can only be described as in an inconsiderate manner. I would like you to take this into consideration before planning permission be granted. I wonder if it's a possibility to install pillars around the green areas to prevent people parking as the volume of traffic using the green areas is increasing all the time. This also restricts ones vision when reversing in and out of ones driveway making it a safety issue.
Thank you for your consideration in this matter.

Yours sincerely
