Subject: Comments for planning application AWDM/1701/23
To: <planning@adur-worthing.gov.uk>

Anna Westley and Alistair Middlemiss

Our comment on the application is as follows:

If the application is approved we would like to ask that consideration is given to the proximity of the new dwelling to our property. As the new development is double the existing height of the garage we are concerned that if the dwelling is built 1 meter from the boundary, as proposed, it will block light to the multiple windows on the south elevation of our property. Therefore, we would kindly ask if the new dwelling could be moved further from our boundary to minimise the impact to our property. Other than this concern mentioned we have no other reservations about the application proposed.
