PLANNING SERVICES

For the attention of: Mr Peter Barnett, Case Officer

Dear Sir,

Reference: Planning Application No: AWDM/1775/18

Change of use from B1/B2/B8 to D2 Gym and minor internal changes of Unit 8 Chartwell Business Park, Lancing by South Coast Gym.

We are business residents on the Lancing Industrial estate and we are writing to you to give full support to the above planning application.

We believe the current gym provides an essential service to ourselves along with other businesses on the park by providing accessible health and fitness for our employees.

With the expansion we believe the gym will not only provide additional activities but will also allow extra room for an educational program which will benefit our staff.

A lot of our current staff use the gym as it is very convenient especially for pre-work and lunchtime training. With all the health benefits that the gym provides we can only encourage the use of such a local facility with our staff.

We run Free of charge for our staff two HIIT exercise classes each week at the gym, these are well attended with up to 20 people at any one session. If the gym expands its space we will be able to offer larger and further classes which will allow inclusion to more people from our business

The gym is well managed and we feel that expanding it can only be a positive for the estate and its business residents.

We hope that you will approve the change of use application.

Yours faithfully,

[redacted]

Dominic Boon
