Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Overdevelopment - Privacy Light and Noise
Comments:	I would like to object to the alterations and building laid out in this planning application. Firstly i feel the raising of the roof height would not be in keeping with the other properties in the area,which are bungalows with relatively low roofs. I feel a building of this height which is very close to the property boundary would overshadow my property and most importantly all three windows on the south facing side would overlook my property,being able to see into my kitchen and bathroom windows,my back door and my gardens.Iwould feel uneasy about being able to be seen in my own house and garden,my wife is getting very stressed about the situation Thank you for your considerations on this matter kind regards Colin Wickenden
