3rd March 2020

Dear Sirs

Re AWDM/1273/19 - AWDM/1771/17

I would like to make an objection to the above amendment. It is clearly obvious that this is another amendment designed to increase the living quarters and space of this building, and no doubt is already laid out as a bedroom. This property started as a small 3 bedroom house which has been allowed to continually increase in size.

It is my understanding that part of the planning requirement was to involve the maintenance of the trees at the perimeter, which has clearly been ignored as they are all outgrown and in a dangerous state overhanging Church lane where I walk with my children. They have caused damage to pavement and to the historic boundary wall.

I have noticed the casual clearing of trees around the site and the build up of litter and building waste on the perimeter making it an eyesore.

Kind regards
