Hi Chris,

Please accept my apologies for the delay in responding. It is my view that the application needs an objective noise assessment as per my e-mail to Keith Morgan below.

Kind Regards

Michael Lavender

Hi Keith,

It needs an objective noise assessment in order that we can determine what impact it will have on the nearest residential properties which are approximately 120m from the boundary of the site. The Council currently receives noise complaints regarding EMR in Shoreham, that is approximately 110m from the nearest residential properties. There is very little in it with regards to distance between the sites.

Regards

Michael Lavender
